

CITY OF HAYWARD
AGENDA REPORT

AGENDA DATE 05/24/05

AGENDA ITEM 3

WORK SESSION ITEM _____

TO: Mayor and City Council

FROM: Director of Public Works

SUBJECT: Public Improvements in Cannery Area: Approval of Addendum, Rejection of Single Bid, and Authorization to Procure Construction in the Open Market through Negotiation

RECOMMENDATION:

It is recommended that the City Council adopt the attached resolution that:

1. Approves Addendum No. 1 that provides modifications to the plans and specifications;
2. Rejects the only bid proposal; and
3. Authorizes the City Manager to procure construction of the project in the open market through negotiation.

DISCUSSION:

The public improvements in the Cannery Area include the realignment of Meekland Avenue at B Street; the construction of the new Martin Luther King Way; reconstruction and expansion of the Amtrak Station parking; construction of a new parking lot along Martin Luther King Way; the installation of storm drain, sewer, water, and street lighting; and the enclosure of the existing open concrete channel portion of Sulphur Creek (see Exhibit A). The City is in the process of acquiring the necessary right-of-way to construct a new street on the south side of the proposed school. Therefore, the project includes alternative bid items that will be awarded if the City can acquire these parcels in time for the construction season this summer; otherwise, the work will be postponed to the next phase of public improvements.

Alternative A includes the construction of the western portion of Street A across from the park, and Alternative B includes the construction of the remaining portion of Street A across from the proposed new school and connecting with Filbert Street.

A second phase of the public improvements will include the extension of Filbert Street from C Street to B Street and installation of the utilities on Filbert Street. This work will be completed with the construction of the new Burbank Elementary School.

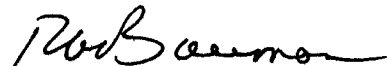

On April 5, 2005, Council approved the plans and specifications and called for bids to be received on May 3, 2005. During the bidding period, Addendum No. 1 was issued to make minor

modifications to the plans and specifications in response to plan holders' questions and to provide necessary design clarifications identified by staff.

The only bid received was from De Silva Gates Construction, LP., of Dublin in the amount of \$3,997,437. The bid amount included Alternatives A and B, and was 23 percent higher than the Engineer's Estimate of \$3,254,000 (see Exhibit B). Another bid was turned in late and, therefore, could not be opened. The design consultant engineer confirmed that the one received bid is unacceptably high. Timing is a factor, since many contractors are already busy for the summer construction season, and higher-than-expected bids are also being seen for other similar roadway construction projects. Staff has spoken with four of the contractors who showed interest in bidding on the project and did confirm that they did not bid because they were too busy with current projects. It is staff's opinion that re-advertising the project at this time will not result in significantly lower bids. In addition, a major component of the work related to the Sulphur Creek channel must be done in the summer and could not be accomplished this year if the project were re-advertised. Thus, because of time constraints and the unreasonably high, single bid, staff recommends rejecting that bid. The Hayward Municipal Code provides that if all bids are rejected, the Council may authorize procurement in the open market. Considering the circumstances discussed above, staff believes procurement on the open market through negotiations will result in savings to the City.

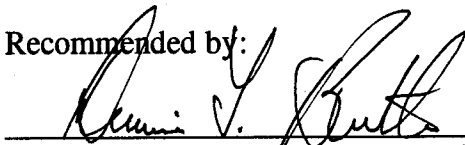

Depending on the results of these negotiations, staff would return to Council in the very near future to award the project. A revised project cost estimate, schedule, and the necessary appropriation from the 2004 RDA Tax Allocation Bond Fund will be included if negotiations are successful. Staff also believes the remaining right-of-way issues can be resolved, so that both alternatives can be included in the project.

Prepared by:

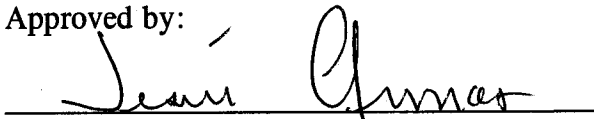

Robert A. Bauman, Deputy Director of Public Works

Recommended by:

Dennis L. Butler, Director of Public Works

Approved by:

Jesús Armas, City Manager

DRAFT

HAYWARD CITY COUNCIL

RESOLUTION NO. 05-

Introduced by Council Member _____

RESOLUTION APPROVING ADDENDUM NO. 1, REJECTING
THE SINGLE BID AND AUTHORIZING PROCUREMENT OF
CONSTRUCTION ON THE OPEN MARKET THROUGH
NEGOTIATION

WHEREAS, on April 5, 2005, the City Council approved the plans and specifications for the Cannery Area Public Improvements Project, Project No. 5099 and called for bids to be received on May 3, 2005; and

WHEREAS, Addendum No. 1 contains modifications to the plans and specification in response to plan holder's questions and to provide necessary design clarifications identified by staff; and

WHEREAS, on May 3, 2005, the only bid received was from De Silva Gates Construction, LP., of Dublin in the amount of \$3,997,437; the bid amount included Alternatives A and B, and was 23 percent higher than the Engineer's Estimate of \$3,254,000; and

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Hayward that Addendum No. 1 is hereby approved and adopted as part of the plans and specifications for the project.

BE IT FURTHER RESOLVED that the City Council hereby finds and determines that, given the lack of bids received, that the only bid received was substantially in excess of the engineer's estimate and the time constraints on the project, it is more beneficial and economical to procure construction of the project on the open market pursuant to Section 1303 of the City Charter and Sections 2-8.01 and 2-8.07 of the Hayward Municipal Code.

BE IT FURTHER RESOLVED that the City Council of the City of Hayward hereby rejects the only bid proposal and authorizes the City Manager to procure construction of the project in the open market through negotiations.
